1. Qualitative Information regarding Consolidated Results for the Six Months

(1) Explanation on consolidated operating results

The RISO Group (RISO) has been following its medium-term management policy of "accomplishing the growth of the number of machine installations by taking full advantage of RISO's utmost unique products to ensure a stable revenue & profit growth".

In RISO's consolidated operating results for the current six months; sales of new products that were introduced in the previous fiscal year continued to be favorable, and net sales increased in the inkjet business. In the digital duplicating business, however, the downward trend in net sales continued. Net sales increased, partly boosted by the depreciation of the yen. In both the inkjet and digital duplicating businesses, the portion of net sales accounted for by products with a low gross profit ratio increased, and gross profit therefore decreased. Selling, general and administrative expenses increased partly due to depreciation of the yen in some regions, while research and development expenditures and other expenses associated with new product releases decreased. As a result, operating income fell year on year. Net sales was 40,128 million yen (up 4.0% year on year), operating income was 1,387 million yen (down 14.7% year on year) , ordinary income was 1,585 million yen (down 7.9% year on year) and profit attributable to the owners of parent was 1,221 million yen (up 8.6% year on year).

The average exchange rates during the current consolidated three months period were 111.06 yen to the U.S. dollar and 126.29 yen to the euro (compared to the same period of the previous fiscal year, the yen depreciated by 5.77 yen against the U.S. dollar and depreciated by 8.14 yen against the euro).

Results by segment are as follows:

a. Printing equipment business

RISO, as part of its printing equipment business, engages in the inkjet business, principally with its ORPHIS high-speed color printers, as well as the digital duplicating business, consisting mainly of its RISOGRAPH digital duplicators.

Net sales for the printing equipment business were 39,523 million yen (up 4.0% year on year). Operating income was 1,198 million yen (down 22.0% year on year).

Japan

In the inkjet business, sales continued to increase steadily, and net sales increased year on year. In the digital duplicating business, net sales fell below the previous year's level. Overall sales were 22,839 million yen (up 0.6 % year on year). Operating income was 1,465 million yen (up 20.0% year on year), due to decreases in sales expenses.

The Americas

In the inkjet business, due to good results for new products introduced in the previous fiscal year, net sales increased year on year. In the digital duplicating business, net sales fell below the previous year's level. Overall sales were 2,716 million yen (down 0.2 % year on year), although the depreciation of the yen had some effect. Operating losses were 309 million yen (compared to operating losses of 183 million yen in the same period of the previous fiscal year).

Europe

In the inkjet business, sales of new products that were introduced in the previous fiscal year continued to be favorable, and net sales increased year on year. In the digital duplicating business, net sales fell below the previous year's level. Overall sales were 6,954 million yen (up 10.8 % year on year), partly boosted by the depreciation of the yen. Due to an increase in the portion of net sales accounted for by products with a low gross profit ratio, an operating loss of 72 million was recorded (compared to operating income of 146 million yen of the corresponding period of the previous fiscal year).

Asia

In the inkjet business, sales of new products that were introduced in the previous fiscal year continued to remain strong steadily, and net sales increased year on year. In the digital duplicating business, net sales fell below the previous year's level. Overall sales were 7,013 million yen (up 11.1 % year on year), partly boosted by the depreciation of the yen. Due to an increase in the portion of net sales accounted for by products with a low gross profit ratio and an increase in selling expenses, operating income was 114 million yen (down 67.3% year on year).

b. Real estate business and others

RISO operates a real estate business as well as a print creating business. Net sales in the real estate and others were 604 million yen (up 4.5% year on year), and operating income was 188 million yen (up 110.6% year on year).

(2) Explanation on consolidated financial position

The financial position of RISO at the end of the current quarter compared to the end of the previous fiscal year is as follows.

Total assets rose 1,279 million yen to 89,268million yen, while net assets fell 1,456 million yen to 62,556 million yen. As a result, the equity ratio moved down 2.7 points to 70.1%.

The main changes in the assets portion include an increase of 1,576 million yen in cash and deposits, 707 million yen in merchandise and finished goods, in contrast to decreases of 1,852 million yen in notes and accounts receivable-trade. In the liabilities portion, there was an increase of 1,165 million yen in notes and accounts payable-trade, 575 million yen in income taxes payable and 774 million yen in other current liabilities.

(Cash flows)

Net cash provided by operating activities was 5,475million yen (up 115.5% year on year). This is mainly attributable to income before income taxes and minority interests of 1,516 million yen, depreciation and amortization of 1,507 million yen, a decrease in notes and accounts receivable-trade of 2,249million yen, an increase in notes and accounts payable-trade of 840 million yen, an increase in accounts payable-other of 203 million yen, an increase in inventories of 610 million yen, and taxes paid of 159 million yen.

Net cash used in investing activities was 124million yen (down 91.3% year on year). This is primarily the result of the 2,032 million yen in proceeds from withdrawal of time deposits, 1,265 million yen expenses for payments into time deposits, 750 million yen for the purchase of property, plant and equipment, and 259 million yen for the purchase of intangible assets.

Net cash used in financing activities was 3,128 million yen (down 20.1% year on year). The result mainly reflects net decrease of 899 million yen for the purchase of treasury stock and payments of 2,242 million yen for cash dividends.

(3) Explanation on future estimates information pertaining to consolidated earnings forecasts

There has been no revision to the consolidated forecasts for the fiscal year ending March 31, 2018, which were released on May 9, 2017.

(4) Explanation on research and development activities

Expenses for RISO's research and development activities in the current six months totaled 2,674 million yen. The main R&D activities were in the printing equipment business.
